

Lab of Psycholinguistics & Neurolinguistics

Eye-Tracking & Language processing Conference, Athens 2023

Program – 7th December

Opening

9:30 - 10:00 AM

Alejandra Keidel Fernández, Anna Gavarró Algueró

An eye-tracking study on the early acquisition of subject-verb agreement in German

10:00 - 10:30 AM

Michela Redolfi, Chiara Melloni

Processing morphology while reading: An eye-tracking study with typical and atypical adult readers

10:30 - 11:00 AM

Coffee Break

11:00 - 11:30 AM

Keynote Lecture

Nikolaos Smyrnis

Eye-movements in Psychiatry

11:30 - 12:30 PM

**Angeliki Andrikopoulou, Athanasios Protopapas,
Amalia Arvaniti**

The effects of lexical stress in silent reading in Greek

12:30 - 13:00 PM

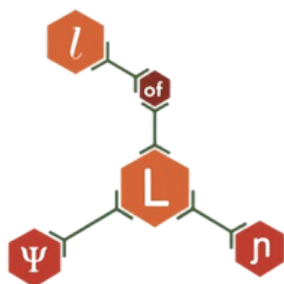

Lunch Break

13:00 - 14:30 PM

Poster Sessions

**Angeliki Gleni, Sotiris Plainis, Miltiadis K. Tsilimbaris, Panagiota Dimitropoulou,
Panagiotis G. Simos**

An integrated approach to explain reading comprehension ability in elementary school children using eye tracking techniques

Lab of Psycholinguistics & Neurolinguistics

Eye-Tracking &
Language processing
Conference,
Athens 2023

HFRI
Hellenic Foundation for
Research & Innovation

Program – 7th December

Lunch Break

13:00 - 14:30 PM

- - - -

Poster Sessions

Christina Manouilidou, Ana Matić Škorić

Sentence comprehension abilities of Slovenian-speaking individuals with Alzheimer's Disease: an eye-tracking study

Natascha Raue, Holden Härtl

Quotation marks and their processing: evidence from eye tracking data

Gabrielle Girard, Denis Foucambert

Effects of gender inclusive writing in French on reading comprehension: an eye-tracking study

Meng Du, Binhua Wang, Callum Walker

Comprehension and production of prosodic features in simultaneous interpreting with text: a multimodal cognitive approach

Keynote Lecture

Timothy C. Papadopoulos

14:30 - 15:30 PM

From the 'black box' of behavior to the use of advanced methods for the study of reading development

Stavroula Alexandropoulou, Nicole Gotzner

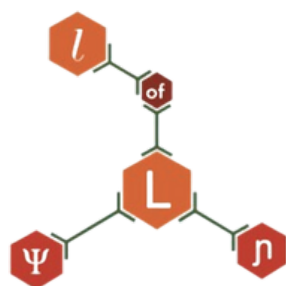

15:30 - 16:00 PM

The role of standard of comparison in adjective interpretation: A web-based visual world study

Spyridoula Cheimariou, Efthymia Kaproula

16:00 - 16:30 PM

Using the visual world paradigm (VWP) to track age-related changes in spoken word recognition

Lab of Psycholinguistics & Neurolinguistics

Eye-Tracking &
language processing
Conference,
Athens 2023

Program – 8th December

Julia Edeleva

Investigating the “Butterfly” Effect in Syntactic Processing: The Interplay of Linear “Early” and “Late” Cues from a Cross-Linguistic Perspective

9:30 - 10:00 AM

Sarah Dolscheid, Martina Penke

Eye-tracking as a window into children's language production

10:00 - 10:30 AM

Coffee Break

10:30 - 11:00 AM

Keynote Lecture

Christina Manouilidou

Syntactic comprehension deficits in Alzheimer's disease and how to intervene

11:00 - 12:00 PM

Ioanna Zioga, Hugo Weissbart, Ashley G. Lewis, Saskia Haegens, Andrea E. Martin

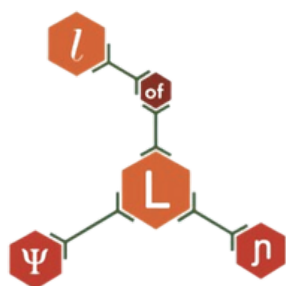

Alpha and beta oscillations shape language comprehension and production

12:00 - 12:30 PM

Aaron Jordan Santa María, María Camila Riapira Arango, Inés Almendra Villalta Ramírez

Heritage speakers and late bilingual show divergent preferences in the online comprehension of perfective and imperfective aspects of Spanish

12:30 - 13:00 PM

Lab of Psycholinguistics & Neurolinguistics

Eye-Tracking &
language processing
Conference,
Athens 2023

Program – 8th December

Lunch Break

13:00 - 14:30 PM

Poster Sessions

Michaela Nerantzini, Katerina Drakoulaki, Dimitris Katsimpokis, Angeliki Andrikopoulou, Antonia Boznou, Eleni Peristeri, Spyridoula Varlokosta
Processing temporary syntactic ambiguities in Greek while reading

Agnieszka Błaszczak, Elisa Díaz Prada and Agnieszka Kałdonek-Crnjaković
Listening comprehension strategies of English language learners with ADHD: A Psychological Process Tracing study

Aikaterini Pantoula
The role of individual factors in the processing of wh-questions: Evidence from Greek heritage language children

Katerina Drakoulaki, Michaela Nerantzini, Dimitris Katsimpokis, Angeliki Andrikopoulou, Antonia Boznou, Eleni Peristeri, Alexandra Economou, Spyridoula Varlokosta
Cognitive intervention in patients with left hemisphere lesions and aphasia; implications on sentence comprehension

Keynote Lecture

Kyran Tsapkini 14:30 - 15:30 PM
Using technology in diagnosis and treatment of neurodegenerative disorders: The case of electrical stimulation in

Primary Progressive Aphasia and Mild Cognitive Impairment.

Christina Athanasiadi, Kateryna Skupovska, Natalia Antonova 15:30 - 16:00 PM

Lexical Competition and Parallel Language Activation in Ukrainian-Russian Bilinguals

Mikael André Albrecht, Allison Wetterlin, Linda Wheeldon 16:00 - 16:30 PM

What the Eyes Reveal about Planning Scope and Cognitive Load in Bilingual Sentence Production
